Coverpoint Cleans Up the Chaos!

Coverpoint solutions enables you to quote, bind and manage your insurance products in real time online, allowing you to ...

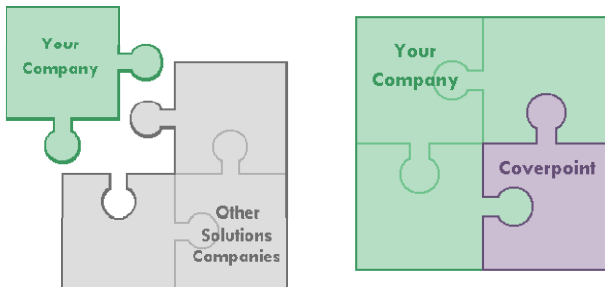

- Eliminate unnecessary paperwork
- Avoid errors and omissions
- Save you time and money

We know insurance and we want to help!

Coverpoint is not your ordinary technology solutions company. We work *exclusively* with insurance companies, which means we understand your business. Our team is comprised of insurance experts, so we are able to provide you with online solutions that are custom-fitted to your needs.

Find out how Coverpoint can save you 40% in processing costs by checking out our Case Studies online at www.coverpoint.com.

Coverpoint: The Solution That Fits

Other IT companies expect you to mould your business operations to fit their model: at Coverpoint, we adapt our online solutions to your business agenda, helping you achieve your goals of efficiency and profitability.

Get Connected: Move your business process online

Coverpoint enables you to complete your document production online in the form of fully digital files. Digitally managing your documents allows you to:

- **Integrate online with third parties** such as aggregators and agents, creating consistency and transparency. Coverpoint connects you and your partners onto a single online platform, reducing communication time and allowing you to move forward effectively and consistently.
- **Increase document production velocity** while decreasing errors and omissions. Our online solutions allow you to rate, quote, and bind in real time online, accelerating your processing time. The transparency of digital files defends against copying errors between documents, making your operations more efficient.
- **Improve contract certainty and policy observance.** Coverpoint reduces your risks by streamlining your document production throughout your distribution. We adapt our core online solutions to fit your business model, helping you reach your goals with precision and professionalism.
- **Implement quick and effortless modifications.** All of our solutions include configurable components, which are adaptable to UK markets and international markets, including multi-language, multi-country, multi-tax, and multi-currency options. Our digital files are easily adjustable, allowing for quick and effortless midterm adjustments and renewals.

Coverpoint Saves You Time

You can experience all of the benefits of Coverpoint without delay: we are ready and willing to work with you globally, wherever you are located. After you provide us with the necessary information, Coverpoint can have your solutions up and running in only a short time. You will soon see that Coverpoint can shave weeks off your turnaround time, allowing you to focus on what matters most: your relationship with your clients.

Coverpoint Saves You Risk

Coverpoint online solutions allows documentation, processing, and sorting to take place exclusively online, eliminating error-prone manual methods. Coverpoint reduces communication errors and omissions by allowing you and your partners to integrate online. The transparency of our online solutions provides contract consistency and insures policy adherence at all levels of business.

Coverpoint Saves You Money

We provide comprehensive online solutions, saving you time and money spent on employee training for new software. Coverpoint allows your business process to take place online, eliminating expense of unnecessary paperwork. Because Coverpoint is able to work through the backend integration of your pre-existing systems, you will not be required to purchase unnecessary upgrades and software installations.
